MAHARASHTRA EDUCATIONAL SOCIETY'S
HUMERA KHAN COLLEGE OF EDUCATION
JOGESHWARI (WEST)

E-Conservation

Objectives

- ☐ To minimize the consumption of paper by transitioning to digital assignment , announcement and materials within google classroom
- ☐ To enhance students digital literacy skills by using digital platform
- ☐ To Cultivate a sense of global citizenship by using digital tools
- ☐ To aware about environmental impact of paper production and disposal

Date: August 11, 2023

Time : 1.30 P.M
Location: Humera Khan College of Education

On August 11th, 2023, a transformative event advocating for e-conservation , paper savings was held at Humera Khan College of Education. The event aimed to highlight the benefits of using Google Classroom as a platform to reduce paper consumption while enhancing the learning experience for students .The event commenced with an inaugural ceremony, where the college **I/C principal Varsha Gamare** emphasized the institution's commitment to sustainability and technology integration. The importance of embracing e-conservation for environmental preservation was underscored.A workshop was conducted by a Google Classroom expert **Asst Prof Vikas** and event organiser, showcasing the features and benefits of the platform. Attendees learned how to create assignments, post announcements, and engage in discussions through the digital interface. Students also spoke about their positive learning experiences, improved organization, and reduced paper burden. Participants engaged in interactive workshopsto familiarize themselves with practical aspects of using Google Classroom. These sessions included hands-on exercises, collaborative assignments, and guidance on effective digital communication.

Learning Outcome

The E-Conservation for Paper Savings through Google Classroom event held at Humera Khan College of Education on August 11, 2023, served as a pivotal moment in promoting digital learning while championing environmental stewardship. The event successfully educated attendees about the significance of paper conservation, demonstrated the practical benefits of Google Classroom, and inspired a collective commitment to contribute to a more sustainable future. It reinforced the institution's dedication to equipping students with digital skills while minimizing its ecological impact.
