

## **Annual Report 2020-2022**

*"The art of teaching is the art of assisting Discovery"*

### **Academics and Lectures**

The beginning of the college year for the Bachelors in Education started off with the warm welcoming of the students through an Orientation organized by the Principal Dr. Neelu Sharma. The Orientation was held online due to the Covid 19 Pandemic. Despite it being through the screen the staff who conducted the orientation were very welcoming and warm. The goal of the orientation was to explain in detail the subjects and the timeline of the syllabus.

Introduction of different projects and activities to be held in the coming academic year were introduced as well. The beginning of the lectures took place following the well organized timetable set by the professors. In the beginning the lectures were held online and later continued offline at the school campus. The Professors explained each and every topic in detail with classroom discussions and clearing queries.

### **Student Council and Morning Assembly**

The Students council plays a vital role in the overall development of the students. They act as a link between the professors and the student body. The student council was selected by the voting of the students. The council consisted of the General Secretary, Ass. General Secretary, Assembly Incharge, Ass. Assembly Incharge, Sports Incharge, Ass. Sports Incharge, Discipline Incharge, Ass. Discipline Incharge, Field Visit Incharge and Ass. Field visit incharge. The students council played an active role in organizing events and connecting the student body to the staff.

The students were divided into groups. Each group conducted the Assembly. The Morning assembly consisted of prayer, Meditation, Significance of the day, and so on. It was a proper training for the teachers as the Morning assembly is an important part of Schools.

After each assembly the students were given constructive criticism by the professors.

### **Community Work**

The community work was organized by the selection of different NGOs. The students visited the Old Age home, Health and hygiene drive. It was an eye opening experience for the students to see the everyday struggles of the people living around us.

### **Internship and Events.**

The internship was divided into 3 parts between semesters. The internship gave actual classroom teaching experience to the students. The students were encouraged to use different teaching methods like Think-Pair-share, Pair work, Discussion method, Inductive method, Deductive method etc. Teaching aids played a very significant role in Teaching.

Living in the current modern world Technology is a part and parcel of life. The students were encouraged to incorporate Digital learning in their lessons. Different aids like Power point presentation, Kahoot, Mentimeter etc. Post each lesson the students were given constructive

criticism on their lesson. The students were guided by the professors on the steps to conduct a class based on their Subjects.

Different events were conducted in different ways. Festivals like Diwali, Christmas and Eid were celebrated. Academic events like Hindi Diwas and Talent Hunt were conducted. Each event had a proper order. An Invitation card was prepared for each event. The responsibility of the event was divided among the students with the supervision of the staff. The events were filled with Enthusiasm. Sports was organized by the student council. It consisted of different activities and games like tug of war, Relay race, lemon and spoon and so on.

### Action Research

The steps to conduct the research and documentation were shared by the Professors. The topics were selected by the students. Each student was guided throughout the process of the research. At the end a viva was held where questions based on the action research were asked.

### Conclusion

The two years of the Bachelors of Education shape every student into a Responsible Teacher. It thoroughly prepares the students for Classroom teaching. It inculcates the qualities of creativity, Problem-solving and so on. It helps the students understand the not only academics but also different behaviors of children of each age group and how to tackle different situations in the classroom. The students were encouraged and pushed to think and step out of their comfort zones. Which led them to gain confidence and overall development. The Guidance of the Principal and Hard work of the professors led to flying results.
