HUMERA KHAN COLLEGE OF EDUCATION  
JOGESHWARI (WEST)**

**Street Play on Rainwater Harvesting Awareness**

**Objectives**

- To Educate the importance of rainwater harvesting in conserving water resources and mitigating water scarcity.
- To Encourage students to adopt rainwater harvesting practices at their homes, schools, and workplaces.
- To Empower the students, with the knowledge and tools to become advocates for rainwater harvesting within their communities.

**Date:** 14th August 2023

**Time:** 1:30 PM

**Location:** Humera Khan College of Education

An engaging street play centered around the theme of rainwater harvesting was performed at Humera Khan College of Education. The street play aimed to raise awareness about the importance of rainwater harvesting as an effective water conservation method.

The street play "Rainwater Harvesting" revolved around a group of enthusiastic students who discovered the power of rainwater harvesting while facing water scarcity in their community. The play effectively conveyed the message that rainwater harvesting is a simple yet impactful solution to address water scarcity, and that individual efforts can create a ripple effect of positive change.

The street play featured diverse characters representing different sections of society, including students, families, and community members. The play opened with scenes depicting the challenges faced by the characters due to water scarcity. These relatable

scenarios established the urgency of the issue. The protagonist of the play learned about rainwater harvesting from an elder in the community, who shared its benefits and importance in conserving water resources. The audience was engaged through interactive elements such as asking questions, encouraging responses, and involving them in certain scenes, making the performance both informative and entertaining. The street play showcased the implementation of rainwater harvesting techniques in various settings, including homes and schools. This demonstrated how simple modifications can lead to significant water savings. The play concluded with a heartwarming depiction of how the community united to adopt rainwater harvesting practices, resulting in improved water availability and environmental sustainability. The Students concluded the play by encouraging the audience to take action and contribute to the cause by embracing rainwater harvesting in their own lives and spreading awareness.

The street play garnered an enthusiastic response from the audience, which included students, I/C Principal Varsha Gamare, Faculty Asst. **Prof Vidya**, **Asst Prof Madhuri**, **Asst Prof Sana**, **Asst Prof Vikas** and In charge of the event was Asst. Prof Avani. The play successfully conveyed its message in an engaging and impactful manner, leaving the audience inspired to take positive steps towards water conservation.

## Learning Outcome

The street play on Rainwater Harvesting Awareness held at Humera Khan College of Education effectively conveyed the significance of rainwater harvesting as a solution to water scarcity. Through relatable characters, engaging scenes, and a call to action, the play encouraged attendees to become advocates for rainwater harvesting and contribute to a more water-conscious and sustainable society.
