

HUMERA KHAN COLLEGE OF EDUCATION, JOGESHWARI (W)

**Research Cell**

Chairperson	Prof. Varsha Gamare
Faculty in charge	Dr. Sandhya Sarwade Prof. Vidya Vishwakarma

Research plays a crucial role in the educational institution environment, offering numerous benefits to students, faculty, institutions, and society. Research cell is essential for fostering intellectual growth, promoting innovation, advancing knowledge, and addressing societal needs. It enriches the learning experience, strengthens institutional capabilities, and empowers individuals to make meaningful contributions to the world around them. The aims of a research cell are to revolve around fostering a culture of research and innovation, promoting academic excellence, and contributing to the advancement of knowledge in the field of research.

**Objectives:**

- To Encourage faculty members, students, and staff to engage in research activities by providing resources, infrastructure, and guidance.
- To Provide Support to faculty and students in identifying research topics, formulating research proposals, and securing funding for research projects.
- Conducting Research Workshops and Seminars: Organizing workshops, seminars, and conferences to enhance research skills, disseminate knowledge, and facilitate interdisciplinary collaborations.
- To encourage faculty members to publish their research findings in reputed journals, conferences, and books, thereby increasing the visibility and impact of the college's research output.
- To Foster collaborations with other academic institutions, industry partners, and research organizations to undertake collaborative research projects and share expertise.
- To Encourage undergraduate students to participate in research activities through initiatives such as research internships, undergraduate research journals, and competitions.
- To Ensure adherence to ethical standards and integrity in research practices through education and training

- To Facilitate the transfer of research findings and technologies from the academic setting to the industry for practical applications and societal benefit.
- To Monitor the progress and impact of research activities within the college and conduct evaluations to assess the effectiveness of research programs and initiatives.

**Activities to be conducted by Research cell:**

1. Facilitating Research Grants and Funding
2. Promoting Interdisciplinary Research
3. Research Scholarships and Fellowships
4. Research Publication and support Research Collaboration and Networking
5. Use of ICT in Research
6. Research Collaboration and Networking
7. Monitoring and Evaluation of research activities
