### **Internship conducted in semester 4 included:**

- 5 mega lesson plan
- 3 Activity based lesson
- 5 co-teaching
- Action Research
- Community Work
- Reflective Journal

Each Students was required to conduct, **5 mega lessons plan, 3. Activity based, 5 co-teaching.** Lessons are conducted on their pedagogical subject and Along with the lessons the students had to conduct co-teaching which involved simultaneous teaching conducted by two pupil teacher or a pupil teacher with the respective subject teacher on the topic related to their pedagogical subject. Evaluating and creating. The interns also conducted an **action research** based on their pedagogy of previous semester. The action research included a problem which the students might be facing and how the pupil teacher would solve it by using illustrative teaching methods

Overall the internship took place under the supervision of various professor of Humera Khan College of Education who not only supervised/observed the students as they deliver their lesson plan but also gave constructive feedback to the students and also gave them the way of resolving their concerns

Internship always brings overall brings holistic development into the pupil teachers it makes them ready for their future endeavours.

This internship period helped them learn to work under pressure and the importance of Punctuality internship. The internship also helped in making the students become well oriented with the skills in technical department, creativity, time management, class management etc. The students learned the prowess of problem solving, teamwork, adaptability, multitasking and making them competent professionals. Everything was conducted smoothly, and they have developed their skills and knowledge.
