

**Topic:** *Develop and Evaluate a CAI Package using ADDIE Model of Instructional Design*

**Organized by:** Alumni Cell, Humera Khan College of Education

**Resource Person:** *Ms. Uniza Shaikh (Alumna, Batch of 2023)*

**Participants:** F.Y. B.Ed. Students

**Date:** 10<sup>th</sup> of October 2025

**Venue:** 501 classrooms

## **Introduction**

Humera Khan College of Education, under the guidance of the **Alumni Cell**, organized an insightful workshop on the topic “**Develop and Evaluate a CAI Package using the ADDIE Model of Instructional Design.**” The session was conducted by **Ms. Uniza Shaikh**, a distinguished alumna of the 2023 batch, who has been actively involved in the field of educational technology and instructional design.

## **Objective of the Workshop**

The main objective of the workshop was to enable student teachers to:

- Understand the concept and structure of the **ADDIE model** (Analysis, Design, Development, Implementation, and Evaluation).
- Learn how to **develop and evaluate a Computer-Assisted Instruction (CAI)** package effectively.
- Apply theoretical knowledge through **hands-on practical examples**.

## **Workshop Proceedings**

The session began with a warm welcome of the resource person by the Alumni Cell Coordinator, followed by an introduction highlighting Ms. Shaikh’s achievements and expertise.

Ms. Shaikh initiated the workshop by explaining the **objectives and importance** of instructional design in modern teaching-learning processes. She elaborated on each phase of the **ADDIE model** and provided real-time examples to ensure better understanding among the students.

A **live demonstration** was conducted to illustrate how a CAI package is designed and developed. Students were given **hands-on practice activities** to explore the tools and methods discussed during the session.

Throughout the session, Ms. Shaikh emphasized the **advantages, limitations, and outcomes** of using the ADDIE model in developing digital learning materials. She encouraged participants to think creatively and adopt technology-driven approaches in their future teaching practices.

### **Outcomes of the Workshop**

By the end of the workshop, participants were able to:

- Comprehend the **ADDIE model framework** in instructional design.
- Gain practical experience in **developing CAI packages**.
- Understand the **evaluation process** of instructional materials.
- Recognize the **benefits and challenges** associated with CAI-based learning.

### **Conclusion**

The workshop proved to be highly informative and engaging. It provided the F.Y. B.Ed. students with valuable insights into the integration of instructional design models in educational settings. The Alumni Cell expressed gratitude to **Ms. Uniza Shaikh** for her enriching contribution and for inspiring the students to explore innovative pedagogical tools.
